OBJECTIVE

A highly motivated and results-oriented individual with around 4 of experience in Software development. Possessing a strong track record of delivering projects on time, as well as exceptional problem-solving and communication skills.

SKILLS

JavaScript(ES6), TypeScript, React, Jest, Redux, WebSocket, Vue, GraphQL, Node, Express, SQL, Python, Django

EXPERIENCE

Software Engineer — Oct 2022 - Present
Innovation Groups

- Led the refactoring of a complex messenger application using WebSocket, Vue.js, and Electron.js to improve its performance, scalability, and user experience.
- Developed and optimized new features and functionalities, resulting in a 20% increase in user engagement and a 3-second reduction in load times.
- Collaborated with cross-functional teams to gather requirements, design new solutions, and resolve issues, ensuring timely and successful project completion.
- Implemented best practices and coding standards to improve code quality, maintainability, and reusability.

Senior Software Engineer — Nov 2021 - Oct 2022
Pluang

- Built a chat site and mobile app using GetStream API, React, and WebView, and implemented spam prevention features that led to a 10% increase in daily active users, higher retention, and reduced spam reports.
- Utilized React Testing Library and Jest to write test cases for the entire project, ensuring high quality and reliable software delivery.
- Supervised and mentored a colleague, providing guidance to help him develop his skills and achieve goals.

Software Engineer — Jun 2020 - Oct 2021
Evaly

- Led a successful project to integrate three different services for riders, resulting in a 30% increase in revenue and a significant boost in customer satisfaction
- Developed analytical dashboards using React ChartJS and Nivo to visualize and analyze all kinds of business statistics, providing insights and enabling data-driven decision making.

Junior Software Engineer — Aug 2019 - Feb 2020
TiGrow

- Developed a productivity tool(task management, project timelines, file sharing, and team communication tools) for remote teams that helps them organize their work and collaborate more effectively.

Front-end Developer Intern — Mar 2019 - Jul 2019
Circle Fintech

- Developed a local payment gateway system for a commercial bank using using React, Redux, React Router.

EDUCATION

Bachelor of Engineering in Electrical and Electronics, East West University — 2015 - 2018

Bachelor's level Diploma, OpenClassrooms — 2019 - 2020
Software Development Program
